## FOR IMMEDIATE RELEASE

### Metabolic Code - Evexia Partnership Announcement

We are excited to embark upon our exciting new partnership with Metabolic Code®! Effective immediately, you can take advantage of the full suite of services offered by Evexia Diagnostics including more competitive pricing on labs, education, and access to a wider array of lab partners. Our goal is to help you gain a deeper level of insight into your patient's health, enabling you to craft a unique and effective care plan, and maximize their outcomes.

Evexia Diagnostics provides cutting-edge, clinical, laboratory services at unbeatable prices to thousands of Functional Medicine and Integrative Medicine clinicians throughout the United States, Canada, Mexico, the Caribbean, and Asia. Our laboratory testing is performed at some of the best facilities in the world (including LabCorp) and supported by thousands of patient service centers throughout the United States.

Evexia has spent more than a decade developing a state-of-the-art proprietary infrastructure to better satisfy clients' needs, including both licensed and non-licensed clinicians. The services offered provide a one-stop-shop solution to address and resolve the most common and critical pain points we typically encounter.

The number one priority, for Evexia, is to produce affordable, fast, and reliable solutions to maximize your efficiency and profitability; while simultaneously administering best-in-class service.

**Get started today by simply clicking the provided link and completing the registration process, use the code "Metabolic Code250" and save \$250 off the cost of enrollment.**
